

Fax Action Wizard

This tutorial provides you the information needed to setup a fax action via the notification wizards.

To get to the starting point of this tutorial:

- Log in as administrator
- Click the “Notifications” tab

1. Adding a notification

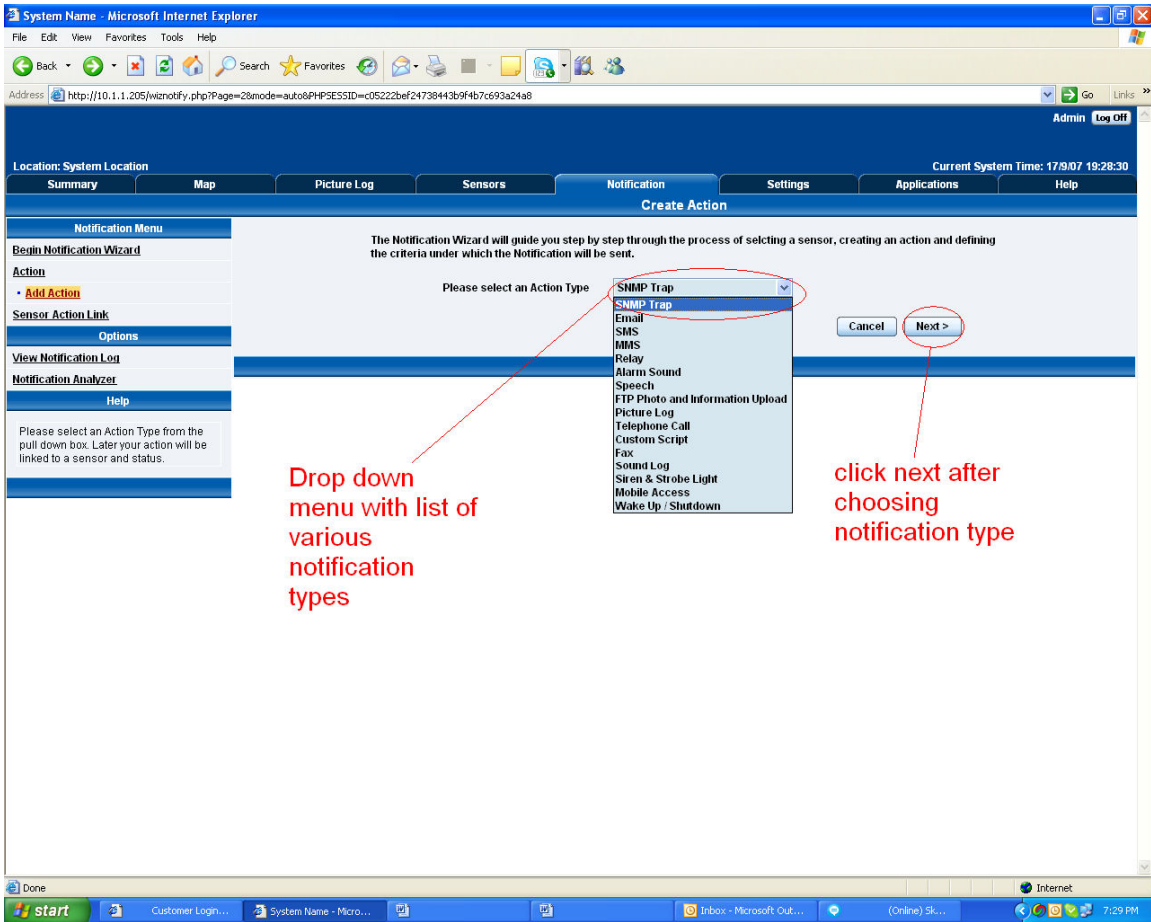

a) First click on the “notification wizard”

The screenshot shows the web interface for adding a notification. The browser address bar shows `http://10.1.1.205/wizardify.php`. The page has a blue header with the text "System Name - Microsoft Internet Explorer" and "Admin Log Off". Below the header is a navigation bar with tabs: Summary, Map, Picture Log, Sensors, Notification (highlighted with a red circle and a callout "Click notification tab"), Settings, Applications, and Help. The main content area is titled "Notification Menu" and contains a "Begin Notification Wizard" link (circled in red with a callout "Click here to begin setting up a notification"), "Sensor Action Link", "Options", "View Notification Log", "Notification Analyzer", and "Help". Below this is a table of actions:

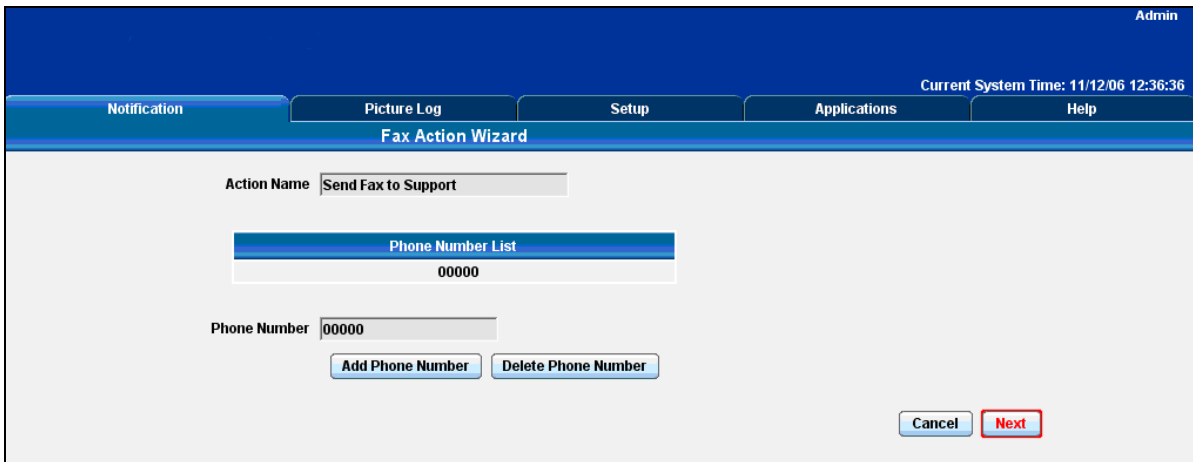

Action Type	Action Name
SNMP Trap	SNMP Trap 1
	SNMP Trap 2
	SNMP Trap 3
	SNMP Trap 4
	SNMP Trap 5
	SNMP Trap 6
Email	Email 1
	Email 2
	Email 3
Alarm Sound	Alarm Sound 1
	Alarm Sound 2
Speech	Speech 1
	Speech 2
	Speech 3
Picture Log	Picture Log 1

Below the table are buttons for "Create", "Duplicate", "Edit", "Remove", and "Test Action". A "Click To Toggle Selection" link is also present. The Windows taskbar at the bottom shows the start button, several open applications, and the system clock at 7:15 PM.

b) You will now have the notification wizard page displayed, like below.

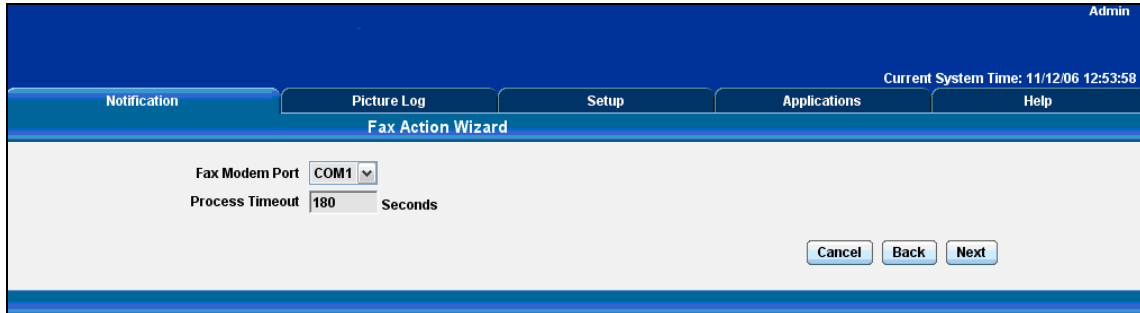

c) Select Fax from the notification type options.

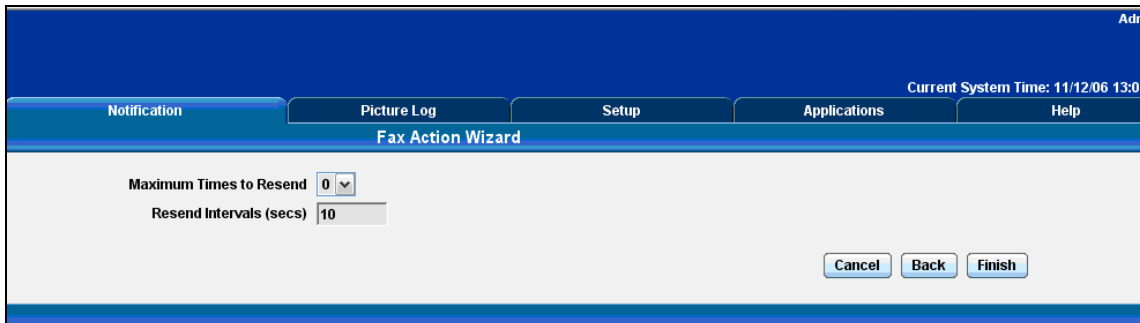

This is a preview of the message that will be sent to your recipient(s). The message sent will include the details relevant to your sensor.

Click **Customize** to change the format of this message. The items in your message with a dollar sign and parentheses e.g. \$[TIME] represents the data to be imported into your message at the time of sending. Please click the **Macro Description** button for a full list.

The screenshot shows the 'Fax Action Wizard' interface. At the top right, it says 'Admin' and 'Current System Time: 11/12/06 12:53:58'. Below this is a navigation bar with tabs for 'Notification', 'Picture Log', 'Setup', 'Applications', and 'Help'. The 'Setup' tab is selected. The main area is titled 'Fax Action Wizard' and contains two input fields: 'Fax Modem Port' with a dropdown menu showing 'COM1' and 'Process Timeout' with a text box containing '180' and the label 'Seconds'. At the bottom right, there are three buttons: 'Cancel', 'Back', and 'Next'.

Select the connection method between your Fax Modem and computer and the Timeout for the process.

The screenshot shows the 'Fax Action Wizard' interface. At the top right, it says 'Admin' and 'Current System Time: 11/12/06 13:00'. Below this is a navigation bar with tabs for 'Notification', 'Picture Log', 'Setup', 'Applications', and 'Help'. The 'Setup' tab is selected. The main area is titled 'Fax Action Wizard' and contains two input fields: 'Maximum Times to Resend' with a dropdown menu showing '0' and 'Resend Intervals (secs)' with a text box containing '10'. At the bottom right, there are three buttons: 'Cancel', 'Back', and 'Finish'.

Define the Maximum number of Times and interval between sending faxes.

Click **Finish** to Save your Action
